

Press release 2013-10-30

EUR 350.000 granted to WEXPOOL Sp. z o.o.

GAEU Consulting is not slowing down. Another customer is granted funding to an investment project. This time, GAEU's experts from Cracow secured **EUR 350.000** in grant for **WEXPOOL Sp. z o.o.**, a company active in the recycling sector. The project is aimed at implementing technological and product innovations, allowing WEXPOOL to gain a competitive edge on the domestic and foreign market. Funding has been granted within Lubuskie Regional Operational Programme for the years 2007-2013, Priority II: "Stimulating investments in enterprises and strengthening the innovation capacity".

Tomasz Wąsik, CEO GAEU Consulting Sp. z o.o.:

- Difficult and demanding investment projects are our speciality. Modern recycling is based on the use of innovative and technologically advanced machines that assure the highest resources recovery rates. The strategy that was adopted by GAEU's team in the process of preparing the application was to link the technological innovation in the project with the growth potential of the recycling industry which is one of the fastest growing industries in Poland. We thank WEXPOOL for effective cooperation in the process of developing the application and congratulate on the funding success.

Jakub Żbikowski, EU Grants Specialist, Coordinator of the project :

- The best chances for grants within Regional Operational Programmes in Poland have those projects that are well-developed, conceptually coherent and strong in their substantive content. During the preparation of the grant application for WEXPOOL, GAEU's project team took care of all details in the project. The priority was to demonstrate the impact of the project on improving the company's competitiveness on the international market, which is a highly demanding task taking into account that recycling of municipal waste is of local character.
